

Job Title: Non-Destructive Testing Technician**Company:** Pronde Technologies Ltd.**Location:** Regina, Saskatchewan, Canada

Pronde Technologies is a leading provider of non-destructive testing solutions in Saskatchewan, with services extending to surrounding provinces. Specializing in innovative techniques, we prioritize ensuring the integrity and safety of critical infrastructure across diverse industries. As industry professionals, our clients rely on us to ensure their equipment inspections, certifications, and projects meet OH&S regulations and applicable standards. We uphold the highest standards of quality, efficiency, integrity, ethics, and safety.

Position Overview: We are seeking a full-time Non-Destructive Testing (NDT) Technician to join our team. The successful candidate will be responsible for conducting various NDT inspections and tests on materials and components to detect defects and work with our engineering team to provide any repair recommendations. This role offers an exciting opportunity to work with experienced professionals and make a significant impact on safety and quality assurance.

Responsibilities:

- Perform a range of NDT techniques such as ultrasonic testing (UT), magnetic particle testing (MT), liquid penetrant testing (PT), and/or visual testing (VT) according to industry standards and project requirements.
- Prepare and set up equipment for inspections, ensuring accuracy and reliability of test results.
- Interpret and evaluate test data to identify defects, anomalies, or irregularities in materials or structures.
- Generate comprehensive reports detailing findings, including recommendations for corrective actions when necessary.
- Collaborate closely with engineering, quality assurance, and project management teams to ensure compliance with specifications and standards.
- Maintain equipment calibration and perform routine maintenance to ensure optimal performance.
- Always adhere to safety protocols and regulations, promoting a culture of safety within the organization.

Requirements:

- Minimum high school diploma or equivalent; additional certification or training in NDT techniques preferred.
- Certification in one or more NDT methods (e.g., CGSB, CWB) is highly desirable.
- Proven experience working in a similar role, preferably within the non-destructive testing industry.
- Proficiency in NDT equipment operation.
- Strong attention to detail and analytical skills.
- Excellent communication skills, both verbal and written.
- Ability to work independently as well as part of a team.
- Valid driver's license and willingness to travel for onsite inspections.
- Travel including overnight stays out of town will be required.
- Ability to work in various environmental conditions.

Benefits:

- Competitive salary commensurate with experience.
- Company vehicle or vehicle compensation option.
- Benefits allowance.
- Eligible for a performance-based annual bonus.
- Monthly and quarterly incentives based on meeting or exceeding various targets.
- Collaborative and supportive work environment.

If you are a motivated individual with a passion for non-destructive testing and a commitment to excellence, we encourage you to apply for this exciting opportunity to join our team at Pronde Technologies. Please visit Pronde.ca careers page to submit your resume and cover letter outlining your qualifications and relevant experience. We thank all applicants for their interest, but only those selected for an interview will be contacted.

Pronde Technologies is an equal opportunity employer and is committed to diversity in the workplace. We encourage applications from all qualified individuals, including those with diverse backgrounds.
